JOIN YOUR COLLEAGUES FOR ONE OF THE FIRST IN-PERSON ANALYTICAL CHEMISTRY CONFERENCES IN OVER A YEAR!

PROGRAM TOPICS INCLUDE:

Techniques in:
- Atomic spectroscopy (LIBS, ICP-MS)
- Molecular spectroscopy (Raman, IR, NIR)
- Chemometrics
- Plasmonics
- Mass spectrometry
- Separation sciences
- UV spectroscopy

Applications in:
- Biopharmaceutical
- Biomedical
- Single molecules
- Forensics
- Process analyses
- Art & Archeology
- Covid-19 analyses

Keynote Speaker:
Dr. David R. Walt
Harvard University
"Measuring Scientific Impact”

Oral abstracts due May 17, 2021
